Mr. Jonas Minton
Senior Water Policy Advisor
Planning and Conservation League
1107 9th Street #901
Sacramento, California 95814

Dear Mr. Minton:

The US EPA has received the letter dated October 29, 2015 that you and five other signatories sent to EPA Administrator Gina McCarthy, Bureau of Reclamation Regional Administrator David Murillo, and others, regarding the Bay Delta Conservation Plan/California WaterFix. Your letter provides comments on the Supplemental Draft Environmental Impact Statement for the BDCP/California WaterFix project and requests that another revised draft EIR/EIS be circulated for federal decision-making on this project. The Bureau of Reclamation is the lead federal agency responsible for the National Environmental Policy Act environmental review process for the BDCP / California WaterFix. Reclamation will be responsible for responding to all comments on the SDEIS.

EPA is charged under Section 309 of the Clean Air Act to review the environmental impact statements of other federal agencies and to comment on the adequacy and the acceptability of the environmental impacts of the proposed action. EPA has reviewed Reclamation's SDEIS regarding the proposed project. Our comments are posted at <http://www2.epa.gov/sfbay-delta/bay-delta-conservation-plan-epa-documents>, along with our previous comments on the Bay Delta Conservation Plan Draft EIS.

Thank you for taking the time to provide us with your thoughts about the proposed project.

Sincerely,

Kathleen Martyn Goforth, Manager
Environmental Review Section
